

Will Okhakumhe, Software Developer

Lagos | okhakumhewill@gmail.com | +2349047706567 | [Linkedin](#) | [Github](#)

SUMMARY

Frontend-focused software developer with 4 years' proven success delivering high-performance web and mobile apps in React and TypeScript. Expert at architecting PERN-stack solutions that balance maintainability with user-centric design. Passionate about writing clean, testable code that solves real-world problems.

EDUCATION

The Bells University of Technology

B.S. in Computer Engineering

Ogun, Nigeria

Expected Graduation, 2028.

- o **Concentrations:** Intelligence and Modeling/Simulations
- o **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Combinatorics, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics & Applications

EXPERIENCE

Kairo

Lagos, Nigeria

Lead Frontend Mobile developer

Dec 2025 – Present

- **Spearheading the end-to-end development** of a mobile application, currently transitioning from prototyping to full-feature implementation using **React Native/Expo**.
- **Architected a scalable backend** using **Supabase**, successfully migrating from mock data to a relational schema to support complex category and subcategory systems.
- **Designed a modular file structure** for the codebase to ensure high maintainability and streamlined feature additions for future scaling.
- **Collaborating in a multi-disciplinary team** to refine UI/UX flows and backend integrations, ensuring the application foundation is robust and ready for deployment.

Bux

Lagos, Nigeria

Full-Stack Mobile developer

Oct 2025 – Present

- Contributing to a community-backed startup building an EV mobility app, developing features using **React.js**, **React Native**, **Typescript** to enable flexible vehicle rentals.
- Collaborating with a large, distributed team using **Agile methodologies**, participating in **architectural discussion** and code reviews to **ensure scalability and performance**.
- Work closely with product and design teams to implement user-facing features focused on income generation and **seamless user experience**

Lullitcloud

Abuja, Nigeria

Full-Stack Mobile developer

Oct 2025 – Dec 2025

- **Developing and implementing features** for their iOS/Android application
- Collaborating closely with the UI/UX design team to **translate wire frames and mock ups into functional code**
- **Implementing API's** for various functionalities like notifications, data storage, educational content delivery
- Writing clean, maintainable, and well-documented code.
- **Identifying and troubleshooting bugs and performance issues**

PROJECTS & VENTURES

BellBuy([Link](#))

Lagos, Nigeria

Founder & Lead Full-Stack Mobile Developer

feb 2025 – Present

- **Mobile Application Architecture:** Architected and developed the entire cross-platform mobile application using **React Native** and **Expo** for a unified codebase across iOS and Android devices.
- **Backend & Database:** Designed and implemented the complete serverless backend, utilizing **Supabase** for secure user authentication, real-time data synchronization, and efficient PostgreSQL database management.
- **Feature Development:** Implemented core marketplace features, including secure item listing, image uploading (via Supabase Storage), search/filtering, and user review systems, enhancing transaction safety.
- **UI/UX & Performance:** Utilized efficient coding practices to ensure smooth **60 FPS mobile performance** and delivered a responsive, intuitive interface tailored for a mobile-first student user base.

- **Problem Solving:** Solved complex state management and concurrency issues inherent in real-time mobile transaction flows.

Family Tree App([Link](#))

Lagos, Nigeria

Founder & Lead Full-Stack Mobile Developer

March 2026 – Present

- **Architected and developed a comprehensive legacy-building platform** designed to map and preserve complex multi-generational family relationships and data.
- **Engineered the data modeling schema** to handle hierarchical structures and interconnected family entities, ensuring data integrity and intuitive navigation.
- **Implemented a responsive frontend interface** that provides a seamless user experience, allowing family members to interact with their history and records easily.
- **Managing the full software development lifecycle (SDLC)** for the project, from initial requirements gathering and feature definition to technical implementation and iterative testing.

transaction flows.

Social App Onboarding([Link](#))

Lagos, Nigeria

Lead Frontend Mobile Developer

March 2026 – Present

- **Engineered a seamless user onboarding flow** designed to maximize conversion and improve first-time user engagement.
- **Implemented robust authentication logic**, ensuring secure user onboarding and state persistence across application sessions.
- **Designed intuitive navigation and form handling**, focusing on UX best practices to reduce user drop-off during the initial setup phase.
- **Applied a modular architectural approach**, ensuring the authentication module can be easily integrated into future, larger-scale mobile projects.

SKILLS

Programming: JavaScript, HTML/CSS, **React Native**, **Expo**, SQL, Node.js, React.js, MATLAB, C++, C

Tools: Xcode, Android Studio, IntelliJ, PyCharm, Eclipse, AWS, Jupyter Notebooks, Git, Bootstrap, Spring Boot, Agile
